

REQUIREMENT TRACEABILITY MATRIX (RTM)

1. Document Information

Field	Details
Project Name	
Module Name	
Version	
Prepared By	
Reviewed By	
Approved By	
Date	

2. Purpose

The Requirement Traceability Matrix (RTM) ensures that all business and technical requirements are mapped to corresponding test cases, test execution status, and defects. It provides complete traceability from requirements to testing outcomes.

3. Requirement Coverage Matrix

Requirement ID	Requirement Type (Business/ Functional/ Non-Functional)	Requirement Description	Source (BRD/ FRD/ User Story)	Priority	Test Case ID	Test Case Description	Test Type (Manual/ Automation/ API)	Test Status (Pass/ Fail/ Blocked/ Not Executed)
REQ_001	Functional		BRD	High	TC_001		Manual	Pass
REQ_002	Functional		User Story	Medium	TC_002		API	Fail

4. Test Coverage Summary

Metric	Count
Total Requirements	
Requirements Covered	
Requirements Not Covered	
Total Test Cases	
Passed Test Cases	
Failed Test Cases	
Blocked Test Cases	
% Requirement Coverage	
% Test Pass Rate	

5. Traceability Types

Forward Traceability

Ensures every requirement has corresponding test cases.

Backward Traceability

Ensures every test case maps back to a requirement.

Bi-Directional Traceability

Ensures complete mapping between requirements, test cases, and defects.

6. Defect Traceability

Defect ID	Linked Requirement ID	Linked Test Case ID	Severity	Status	Comments
BUG_001	REQ_002	TC_002	High	Open	

7. Risk & Gap Analysis

Gap ID	Description	Impact	Mitigation
GAP_001	Requirement not covered	High	Create test case
GAP_002	Missing test data	Medium	Prepare data

8. Change Management

Change ID	Requirement ID	Description	Impacted Test Cases	Status
CHG_001	REQ_001	Updated requirement	TC_001	Updated

9. Assumptions

- All requirements are finalized and approved
- Test cases are reviewed and updated regularly

10. Dependencies

- Availability of test environment
- Access to required systems/APIs

11. Tools Used

- JIRA / Azure DevOps (Requirement & Defect Tracking)
- Excel / Google Sheets (RTM maintenance)

12. Approval & Sign-Off

Role	Name	Signature	Date
QA Lead			
Project Manager			
Client
